

My new home

1	Hello everybody! I'm Hoa. I came to England seven months ago. My first impression when I
2	arrived was about the airport and how huge it was. I was also surprised by the big
3	supermarkets and the buses which were everywhere.
4	At first, everything was very hard for me because my English was not good and I did not
5	have any friends in London. I could not go to the supermarket alone and I could not catch
6	the bus. I could not talk with my nephew or my niece. My sister-in-law had to help me when I
7	wanted to go the hospital or go shopping while my husband was at work.
8	Almost everything was very strange and new to me at that time and I didn't feel confident in
9	myself. But after about two months, when I went to college, everything became better. I
10	learnt a lot of things in my class and my English became better too. I will continue to learn
11	English until it is like my first language.
12	Now I feel happy and satisfied with my life. I have a wonderful family and a stable job, and I
13	attend a good college in London, which is a city I love. That is really fortunate for someone
14	new to the UK like me.

Hoa
