Integrated assignments

Introduction

There are two integrated assignments supporting these materials:

- 1 Risk assessment
- 2 Customer service.

These provide learners with an opportunity to extend and apply the skills they have developed within their vocational course and through the use of these materials. They are structured in a similar style to Key Skills assignments, but the content reflects learning from particular modules.

Introducing the assignments

Teachers should go through the assignments with learners to check that they understand the tasks and have strategies for tackling each one. Learners can be asked to produce an action plan or checklist, to ensure that they are clear about the demands of each task within the assignment. Learners should be made aware of the signposting to the relevant modules within the Embedded Learning materials if they need to look back and check some skills.

Assessing learners

Learners are expected to complete tasks independently with the minimum of teacher input. The marking scheme identifies the units and elements of the National Occupational Standards, Key Skills and the Adult Core Curricula for Literacy and Numeracy.

Learners' performance can be assessed on all three aspects of the task or one specific area. Coverage of the National Occupational Standards includes some performance criteria and/or underpinning knowledge from the NVQ. Additional questioning or observation of tasks may provide sufficient evidence for learner portfolios.

Integrated assignment 1

Risk assessment

Health and safety is very important in the workplace. Your employer is responsible for providing a safe working environment. You are also responsible for your *own* health and safety and the health and safety of *others*. This includes your workmates, customers and other members of the public.

In this assignment you can show your knowledge of health and safety issues within your own work area. You will need to complete Parts A–D.

- A Complete a risk assessment for a job at work.
- B Research two hazards and safe methods of work.
- C Describe an accident using an Accident report form.
- D Make a list of people who would be involved in investigating an accident.

PART A

- 1 Think about a job or task that you may be asked to do at work. Write a brief description.
- 2 Use the risk assessment table on the next page to list any risks or hazards related to this task. These may be risks that apply to your work role in general or risks that are related just to this task.

Think about:

- the people involved
- the materials or equipment being used
- the work area.

If you have any problems with this task you can look at the health and safety information in the embedded paper-based materials Module 1: The working environment.

- 3 Complete the risk assessment table on the next page to show what action you think should be taken to ensure safe working, and identify who is responsible for this action.

Risk assessment table

Task description:		
Hazard or risk	Methods or actions to ensure safe working	Person responsible

PART B

Find out as much as you can about two of the hazards you have identified and the methods you can use to protect people.

Make sure you have included the following:

- what the hazard is
- how it affects people in your workplace
- methods you can take to avoid accidents
- actions to take if an accident happens.

Present your findings using graphics.

Sources of information and evidence you can use

- Workplace policies and procedures
 - Leaflets or booklets from the Health and Safety Executive (HSE)
 - the Internet, e.g. <http://www.hse.org.uk/>
 - Photographs with explanations
 - Drawings or plans of the work area
 - Examples of safety signs and symbols that relate to this work area
 - A colleague or supervisor
- Photocopy and highlight anything that relates to the hazards you have identified.

If you have any problems with this task you can look at the health and safety information in the embedded paper-based materials Module 1: The working environment.

Note

You may want to add more information to the Risk assessment table in Part A after you have completed your research.

PART C

Think again about the safe working methods for this job.

What might happen if these are not used? Discuss this with your teacher or with a partner.

Think about a possible accident that may occur. Use this information to complete an Accident report form. (Use the Accident report form from the Source material or download a form from the RIDDOR website www.riddor.gov.uk.)

Before you start to complete the Accident report form, you may find it useful to make notes using the headings from the form.

If you have any problems with either of these tasks you can look at the embedded paper-based materials Module 1: The working environment.

PART D

Make a list of all the people who would be involved in reporting and investigation an accident in your workplace.

Make sure you find out what each person is responsible for.
Explain this to a colleague or your teacher.

If you have any problems with this task, talk to your health and safety representative.

Hospitality Integrated assignment 1: Risk assessment This assignment relates to Element 1GEN1.2 of the Occupational Standards and practises the skills developed in the health and safety areas of Module 1: The working environment in the Embedded Learning materials.						
Part A: Complete a risk assessment for a job at work.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN1.2	Help to maintain a hygienic, safe and secure workplace: - Keep a look out for hazards in your workplace. - Identify any hazards or potential hazards and deal with these correctly. - Follow health, hygiene and safety procedures in all your work.			Wt/L1.2 HD1/E3.4	Judge how much to write and the level of detail to include. Organise and represent information in different ways so that it makes sense to others.	
Part B: Research two hazards and safe methods of work.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN1.2	Help to maintain a hygienic, safe and secure workplace: - Keep a look out for hazards in your workplace. - Identify any hazards or potential hazards and deal with these correctly. - Follow health, hygiene and safety procedures in all your work.			Rt/L2.2 Slc/L1.2 Wt/L2.4 Wt/L2.6	Read and understand a range of information from different sources. - Make requests and ask questions to obtain information in familiar and unfamiliar contexts. - Use format and structure to organise writing for different purposes. - Use different styles of writing for different purposes.	

Part C: Describe an accident using an accident report form.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN1.2	Help to maintain a hygienic, safe and secure workplace: Report any accidents or near accidents quickly and accurately to the proper person.			Wt/L2.2 Wt/L2.3 Wt/L2.4 SLd/L1.1	- Judge how much to write and the level of detail to include. - Present information and ideas in a logical sequence. - Use format and structure to organise writing for different purposes. - Follow and contribute to discussions on a range of straightforward topics.	
Part D: Make a list of people who would be involved in investigating an accident.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN1.2	Help to maintain a hygienic, safe and secure workplace: Report any accidents or near accidents quickly and accurately to the proper person.			Wt/L1.5 SLc/L2.4	- Use format and structure for different purposes. - Present information and ideas in a logical sequence and provide further detail and development to clarify or confirm understanding.	
Key Skills: Successful completion of this assignment will cover the following Key Skills: Part A and Part C – Level 1 C1.3 Write two different types of documents ... Part B and Part D – Level 2 C2.2 Read and summarise...; C2.3 Write two different types of documents...; C2.1b Give a short talk.						

Integrated assignment 2

Customer service

Customer service is very important in hospitality. Good customer service can be the one thing that makes a customer return again and again. Good customer service depends on a range of good communication skills in order to recognise and respond to customers' needs.

In this assignment you will collect important information from customers to pass on to your supervisor in order to help improve the service provided. You will need to complete Parts A–D:

- A** Read and make notes on customer service guidelines.
- B** Make a customer questionnaire from the guidelines.
- C** Use the questionnaire to ask customers questions.
- D** Present customers' answers in an interesting and useful way.

PART A

- 1** Find the customer service guidelines in your staff handbook or the induction materials you have been given at work.
- 2** Make a note of the main points, which may cover such things as:
 - staff appearance such as what to wear
 - restaurant appearance – clean, tidy and well presented
 - meeting and greeting customers when they come in
 - recognising customers' needs
 - serving customers
 - being polite
 - giving prompt service
 - knowing the menu and being able to advise customers
 - dealing with problems or complaints.

If you have any problems with this task you can look at the embedded paper-based materials 'Finding the information you need' and 'The staff handbook' in Module 1:
The working environment

PART B

Use your notes to write questions you can ask customers to find out what they think of the service.

Choose questions that will tell you what customers think about:

Hos Integrated assignments, Source material and Glossary

- the way staff look and speak to them
- how helpful staff are
- areas that could be improved.

Write your questions in clear and polite language.

You should ask at least six questions, but you can ask more if you want to.

The examples below show different ways you could write your questions and record the answers.

You might use one or more of these styles or you can use your own ideas.

Example questionnaire style 1

1 Do you find staff in this restaurant friendly?
Yes ☒ No ☐ Don't know ☐

Tick boxes are a quick way to note answers but it means you can only ask simple questions that do not require detailed answers.

Example questionnaire style 2

1 What score out of 5 would you give this restaurant for the way the food is displayed?
1 2 3 4 5

A scoring system of 1–5 gives customers a wider range of answers. You can circle the number for speed. You will need to be able to explain the system to customers.

Example questionnaire style 3

1 Is there anything you would like to see improved or included in our service?

Quicker service during lunch periods.

More choice for vegetarians

Writing in the answers takes longer but you will get more information. Keep notes short – but make sure you can read them!

Note

- 1 For the three questionnaire styles above consider:
 - how easy it will be to ask the questions
 - how easy it will be to report the answers in part D
 - how much information the answers are likely to give.
- 2 Consider the questions you want to ask and choose the style that will give you the best answer to each question.

If you have any problems with this task, ask your supervisor for advice.

PART C

You can now use your questionnaire to ask customers questions about the service.
You need to speak to at least 20 customers in order to get a good range of people that use your restaurant.

You might also consider asking a mix of the following customers:

- male and female customers
- different age groups
- regular and new customers (you may need to check this).

Be polite at all times.

PART D

Present customers' answers in a way that will be interesting and useful to your colleagues.
You can:

- write it as a short report using the questions as subheadings and summarising the answers
- make an information leaflet that explains the results of the questionnaire
- make a poster of 'good' and 'bad' points about the service according to customers
- explain what you found out to your supervisor and make suggestions for what you think could be done to make improvements.

Note

You need permission from your supervisor or manager before you do this.

Note

Think of the best way to use the information you have gathered in order to raise awareness of customer service in your workplace.

- You can make a leaflet or poster more interesting by using bright colours and adding pictures or photographs.
- You could type up your information on computer and use some of the graphics.

Hospitality Integrated assignment 2: Customer service This assignment relates to Unit 1GEN3 of the Occupational Standards and practises the skills developed in Module 1: The working environment and Module 2: Reception, reservations and events of the Embedded Learning materials.							
Part A: Read and make notes on customer service guidelines.							
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved	Achieved with support
1GEN3.1 K1, K2, K3, K4, K5, K9, K11	Deal with customers.			Rt/L1.3	Identify the main points and specific detail.		
1GEN3.2	Deal with customers' problems.			Rt/L1.4	Use organisational and structural features to locate information.		
				Wt/L1.1	Plan and draft writing.		
Part B: Make a customer questionnaire from the guidelines.							
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved	Achieved with support
1GEN3.1 K1, K2, K3, K4, K5, K9, K11	Deal with customers.			Wt/L1.2	Judge how much to write and the level of detail to include.		
				Wt/L1.4	Use language suitable for purpose and audience.		
1GEN3.2	Deal with customers' problems.			Wt/L1.5	Use format and structure for different purposes.		

Part C: Use the questionnaire to ask customers questions.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN3.1 K1, K2, K3, K4, K5, K9, K11	Deal with customers.			SLc/L1.1	Speak clearly in a way that suits the situation.	
1GEN3.2	Deal with customers' problems.			SLc/L1.2	Make requests and ask questions to obtain information in familiar and unfamiliar contexts.	
Part D: Present customer answers in an interesting and useful way.						
NOS/NVQ refs	Performance criteria	Achieved	Achieved with support	Core curriculum refs	Core curriculum elements	Achieved with support
1GEN3.1 K1, K2, K3, K4, K5, K9, K11	Deal with customers.			Wt/L1.2	The following elements may be covered in the written presentation choices.	
1GEN3.2	Deal with customers' problems.			Wt/L1.4	Judge how much to write and the level of detail to include.	
				Wt/L1.5	Use language suitable for purpose and audience.	
					Use format and structure for different purposes.	
				SLc/L1.3	The following element is covered in the spoken presentation choice. Express clearly statements of fact, explanations, instructions, accounts and descriptions..	
Key Skills: Successful completion of this assignment will cover the following Key Skills: Part A – Level 1 C1.2 Read and obtain information ...; Level 1 C1.3 Write two different types of documents (notes) ... Part B – Level 1 C1.3 Write two different types of documents (questionnaire) ... Part C – Level 1 C1.1 Take part in a one-to-one discussion. Part D – EITHER Level 1 C1.3 Write two different types of documents (if writing choice taken) OR Level 1 C1.1 Take part in a one-to-one discussion (if spoken choice taken).

HEALTH AND SAFETY LAW

What you should know

Your health, safety and welfare are protected by law. Your employer has a duty to protect and keep you informed about health and safety. You have a responsibility to look after others. If there is a problem, discuss it with your employer or safety representative, if there is one. Below is a brief guide to health and safety law. It does not describe the law in detail, but it does list the key points.

Your employer has a duty under the law to ensure, so far as is reasonably practicable, your health, safety and welfare at work.

Your employer must consult you or your safety representative on matters relating to your health and safety at work (see box below).

In general, your employer's duties include:

- making your workplace safe and without risks to health;
- ensuring plant and machinery are safe and that safe systems of work are set and followed;
- ensuring articles and substances are moved, stored and used safely;
- providing adequate welfare facilities;
- giving you the information, instruction, training and supervision necessary for your health and safety.

In particular, your employer must:

- assess the risks to your health and safety; make arrangements for implementing the health and safety measures identified as being necessary by the assessment;
- if there are five or more employees, record the significant findings of the risk assessment and the arrangements for health and safety measures;
- if there are five or more employees, draw up a health and safety policy statement, including the health and safety organisation and arrangements in force, and bring it to your attention;
- appoint someone competent to assist with health and safety responsibilities, and consult you or your safety representative about this appointment;

Management of health and safety

Appointed person(s)	Health and safety responsibilities

As an employee you have legal duties too. They include:

- taking reasonable care for your own health and safety and that of others who may be affected by what you do or do not do;
- co-operating with your employer on health and safety;
- correctly using work items provided by your employer, including personal protective equipment, in accordance with training or instructions; and
- not interfering with or misusing anything provided for your health, safety or welfare.

If you think there is a health and safety problem in your workplace you should first discuss it with your employer, supervisor or manager. You may also wish to discuss it with your safety representative, if there is one. You, your employer or your safety representative can get information on health and safety in confidence by calling HSE's Infoline telephone service on 0800 545550.

If you think your employer is exposing you to risks or is not carrying out legal duties, and you have pointed this out without getting a satisfactory answer, you can contact the enforcing authority for health and safety in your workplace (see below). Health and safety inspectors can give advice on how to comply with the law. They also have powers to enforce it. HSE's Employment Medical Advisory Service can give advice on health at work. You can contact them at the addresses below.

Name and address of enforcing authority whose health and safety inspectors cover the workplace (eg HSE or your local authority's Environmental Health Department):

Name:
Address:

Employment Medical Advisory Service
Address:

You can get advice on general fire precautions etc from the fire brigade or your fire officer.

Health and safety consultation and representation arrangements at this workplace

Your employer must consult you or your representative on matters to do with your health and safety, including:

- any change which may substantially affect your health and safety at work, eg in procedures, equipment or ways of working;
- the employer's arrangements for getting competent people to help him/her satisfy health and safety laws;
- the information you have to be given on the likely risks and dangers arising from your work, measures to reduce or get rid of these risks and what you should do if you have to deal with a risk or danger;
- the planning of health and safety; and
- the health and safety consequences of introducing new technology.

Job description

0:07

Ye Olde Thatched Barn Hotel Restaurant and Conference Centre

Job description

POSITION: Barman/Barmaid

RESPONSIBLE TO: Bar Manager

RANK: Barman/Barmaid

OVERALL RESPONSIBILITIES:

- To serve customers in an efficient and friendly manner
- To maximise sales and undertake duties regarding the care and control of stock
- To work in a safe, hygienic manner
- To follow licensing laws
- To maintain a high standard of personal appearance and hygiene

RESPONSIBILITIES

1. General duties

- Set up bar area.
- Stock shelves.
- Stock refrigerators.
- Prepare drinks, including cocktails, and dispense wines.
- Prepare garnishes.
- Serve drinks.
- Take payment.
- Clear tables.
- Wash glasses.
- Keep bar area clean and tidy.

2. Customer service

- Acknowledge/approach customers, ideally within one minute of their entering the bar.
- Be friendly and enthusiastic and make customers feel welcome.
- Ask customers appropriate questions to determine need.
- Develop knowledge of the drinks sold and describe the features of various drinks when asked.
- Use the customer's name whenever possible.

3. Payment procedures

- Implement till drill standards in accordance with Company policy.
- Carry out all other methods of payment in accordance with Company procedure.
- Assist with cashing-up as required.

4. Stock control

- Ensure that shelves are well stocked and collect stock from cellar as required.
- Clean fixtures and stock and maintain both in a pristine condition.
- Book in, price and return stock to suppliers as required by the Bar Manager, in accordance with Company procedure.
- Carry out stock counts and place orders as required by the Bar Manager.
- Inform the Bar Manager on occasions where sales are lost through lack of availability of stock, in order to avoid a repetition.

5. Security of merchandise

- Observe all members of the public entering the bar and, if suspicious about a member of the public, follow Company security procedures.
- Inform the Bar Manager of any observed or suspected abuse of Company security rules.

6. Other duties

- Carry out other duties in the bars as required by the Bar Manager.
- Work in any department within the hotel as required by the Personnel Manager.
- Act as a mentor if required.
- Represent members on the Hotel Council or other consultative body if elected to do so.
- Carry out duties in a safe manner and follow the Company's Health and Safety Policy.
- Follow Company emergency procedures as laid down in Company regulations.

Contract of employment

0:08

Ye Olde Thatched Barn Hotel Restaurant and Conference Centre

Contract of employment

NAME:

HOURLY RATE OF PAY:

POSITION:

HOURS OF DUTY:

DATE OF COMMENCEMENT:

JOB DESCRIPTION: All Employees are given a written Job Description which MUST be read and understood before completion of this Contract. Acceptance of this Contract is acceptance of the duties as described.

This Contract is issued following the completion of the Induction and Probation period. When appointment has been confirmed, four weeks' notice, in writing, will be required.

Pay during holidays will be at your basic rate. If you leave your employment under normal circumstances, you will receive payment in lieu of any holiday earned but not taken in the current year. If holiday has been taken in excess of entitlement to the date of leaving, the excess will be deducted from your final payment of wages.

SICKNESS OR INJURY ABSENCE: If you are absent from work because of sickness or injury, a self-certificate must be completed in respect of absences of seven days or fewer. Medical certificates must be provided to cover all absence from the 8th day on. You will not be entitled to wages during such absence. You will be paid in accordance with the Statutory Pay Scheme, where entitled.

MEALS AND BREAKS: Included in duty hours are break and meal times. Appropriate food and drink are provided by the Company should you require it.

UNIFORM: This is provided at the discretion of the Employer and should be worn only on duty. It is the responsibility of Employees to repair and launder their own uniform and only with the Employer's agreement can it be renewed or replaced.

SMOKING: Smoking is only permissible during break times and only in the designated areas.

TRAINING: The Company believes in 'ongoing' training and attendance of courses. Employees will be asked and expected to attend such appropriate training/venues as required by the Employer. When there is a cost involved, apportioned contribution will be negotiated between Employer and Employee.

I acknowledge receipt of my Statement of Main Terms and Conditions of Employment and confirm that I have read and understood it.

Sick pay scheme

0:09

The **Chain hotels** sick pay scheme applies to all permanent employees. The sick pay year commences on 1 April. Payment during absence due to illness is made subject to the limits of the following scale during the sick pay year. In applying the scale, absence during the year is aggregated.

Period of continuous employment as at the start of the sick pay year (i.e. 1st April) or on completion of 6 months' service for those with less than 1 year's service.

Period of full pay

Less than 6 months	Nil
6 months but less than 1 year	4 weeks
1 year but less than 2 years	6 weeks
2 years but less than 3 years	10 weeks
3 years but less than 4 years	14 weeks
4 years but less than 5 years	17 weeks
5 years but less than 10 years	20 weeks
Over 10 years	26 weeks

If the rules regarding notification of sickness have been observed, payment during certified absence because of genuine illness or injury will normally be made, subject to the following limitations. Payment, however, is at the discretion of the Company.

Chain hotels reserves the right, when considered appropriate, not to make payment when:

- Absence results from an accident/injury which occurs outside the course of employment. If the payment is made and you are subsequently able to claim the costs from the responsible party or an insurance policy, then these are to be repaid to the Company.
- You fail to follow the absence reporting procedure.
- There is reason to doubt the validity of your absence.
- The illness or injury was self-inflicted.

Absence which commences in one sick pay year and continues into the next is deemed to be absence during the first year for the purpose of calculating sick pay entitlement, and payment will continue until entitlement is exhausted. Any further entitlement to payment during illness in the second year is dependent upon you returning to work in the second sick pay year for a minimum of 4 consecutive working weeks.

Spot the dangers

0:10

General health and safety policy and procedures for Reception

0:11

General health and safety policy and procedures for Reception

Employees should take reasonable care of themselves, other employees and other persons on the premises. This means looking out for hazards and taking action to prevent injuries.

General hazards

1. Trips, slips and falls

These are the most common accidents and are caused by slippery surfaces, obstructions left on or across the floor, or uneven floor surfaces such as missing floor tiles, worn patches of carpet or floor coverings that have come unfixed.

Prevention/procedure: Staff should be vigilant in noticing any of these hazards. Moveable trip obstructions such as cables should be removed immediately and the situation reported to the supervisor. The obstacle or item should be put in a safe place out of the way. Fixed items such as carpets or floor defects should be isolated using a free-standing warning sign and be reported to the Maintenance department. Newly polished or wet floors following cleaning should have a free-standing warning sign. Any spillages should be reported and a warning sign put up to stop people from treading in the spillage.

2. Walking into objects

This might involve fixed objects such as pillars and doors or moveable objects such as plants and furniture.

Prevention/procedure: Warning signs are needed on fixed objects if incidents occur regularly. Moveable objects should be put in a place where they are clearly visible or out of the way. Avoid crowded conditions.

3. Electric shock

This is often caused by faulty or damaged equipment.

Prevention/procedure: Machines should be tested regularly and plugs checked for damaged flexes, exposed wires or damage to the plug itself. Switches and light fittings should also be checked. If damage is found, machines should be switched off immediately and an 'out of order' sign put on them. Any damage should be reported to the Maintenance department and to the supervisor immediately.

4. Fire risks

These can be electrical or caused by discarded cigarettes or matches. Staff should be aware of the fire drill and positions of fire exits and fire points. Training will be given on fire safety, including fire fighting equipment and procedures. (There is an annual check of fire equipment such as extinguishers.)

Prevention/procedure: Staff should be vigilant for any sign of fire and make sure fire exits are clear of obstructions at all times, without exception. Any obstruction of fire exit should be cleared and the situation reported to the supervisor, who will keep account of these instances for safety meetings.

Guidelines for dealing with bomb threats

0:12

8 Bomb threats

8:1 What is a bomb threat?

A bomb threat is a warning that a bomb may explode in or near the premises. The threat may be made by telephone or a bomb may be thrown or deposited by hand.

8:2 Arrangements and responsibilities

8:2 i Manager's responsibilities

- Instruct employees to take the correct action in the event of a bomb threat.
- Ensure regular warnings and testing of procedures are carried out.
- Display notices near a telephone with action points about what to do.
- Ensure good housekeeping and lock unused areas.
- Inform the police and senior manager if suspicious about any unusual objects.

8:2 ii Employees' responsibilities

- Know what to do in the event of a bomb threat.
- Be familiar with the escape routes and evacuation procedures.
- Always be vigilant.
- Inform manager if suspicious about any unusual unattended packages.

8:3 Key safety points

8:3 i Know what to do in the event of a bomb threat

- Keep calm.
- Try to obtain as much information as possible.
- Call the police.
- Evacuate the building.
- Inform the senior manager as soon as possible.

8:3 ii On discovery of a suspicious package

- Do not touch it or attempt to move it.
- Evacuate the premises, including any toilets.

Role-play cards – asking for and giving information

0:19

EMPLOYEE CARD

1

You are passing on important security information to a customer. Don't look at the customer while you speak, and mumble what you say so that it's difficult to hear.

CUSTOMER CARD

1

You have hearing problems and cannot hear anything that the other person is saying. However, do not interrupt or explain you cannot hear. Wait to see how long it takes the other person to notice!

EMPLOYEE CARD

2

You are giving a customer directions to a particular place. Give the directions all at once without stopping. Don't worry about the order you give them in.

CUSTOMER CARD

2

You are finding it difficult to understand the information you are being given. When the other person has finished talking, ask the person 'What did you say first?'

Procedures for check-in and check-out

0:20

Procedures for check-in – new guests

1. Smile and make eye contact with the guest. Say good morning, afternoon or evening.
2. Ask for the guest's surname and initials.
3. Find the guest's details on the system and confirm the address.
4. Present the registration card and ask the guest to check the details and sign the card.
5. Ask whether the guest requires a smoking or non-smoking room.
6. Confirm the reservation details to the guest:
 - Room type

Procedures for check-out

1. Once a guest has told you she or he wants to check out, confirm the guest's name or ask for the guest's name if you do not know it.
2. Find the guest's information on the system and confirm the guest's name and room number.
3. Print out an invoice for the guest and ask the guest to check that it's correct.
4. Ask the guest how he or she will be settling his or her account.
5. While the account is being settled, check that the guest enjoyed their stay.
6. When the account is settled, thank the guest for staying and offer a hotel brochure for future reference.

Role-play cards – dealing with complaints

0:21

CUSTOMER CARD

1

This is the first time you have complained about anything and you are feeling quite embarrassed about it. You don't want to cause a scene, but you don't want to be walked over either!

ASSISTANT CARD

1

You are having some personal problems at home and things are very stressful. On top of this you have had a busy day and you are feeling quite ill. The last thing you need is a complaining customer!

CUSTOMER CARD

2

You often have to make complaints in this restaurant about the food and the service. This latest problem has really annoyed you and you are not going to take any more!

ASSISTANT CARD

2

The policy in your restaurant is that the receptionist should deal with complaints and not involve managers unless it is essential. Can you satisfy the customer without involving the manager?

Extract from the staff handbook

0:25

9 Advising customers

Customer Service

Hotel selling points

Guests will ask about prices and special rates the hotel offers. Many will also want to know what facilities the hotel offers, including rooms, leisure facilities, dining options, facilities for the disabled, special events and services.

Give information positively so that it gives a good impression of the accommodation and services provided.

Function room information

For function room enquiries you will need to know the capacity of pax for each room. Similarly, in order to give the correct information, you need to know how many covers can be seated comfortably in the eating area of the different conference rooms.

Timetables

Travel timetables contain useful information for you to give to guests.

If a guest needs to catch a train, ring up to doublecheck the times, cost and any delays.

Maps

Maps can help you to give guests clear directions for how to get to the hotel and local tourist areas.

Customer Service

Advising customers 10

Local attractions/events

Guests and potential guests may want to know about local attractions, such as fairs, historical places, shopping complexes or theme parks. There will also be events taking place in the area at different times of year. You may be required to give directions to these places and know some details about them (see below).

How to find information

There is plenty of information to be found in the hotel, for example, in staff handbooks, brochures, guest information and so on. Senior members of staff will advise you on any special information you need to know about. The brochure information will be kept up-to-date, so this gives you the opportunity to update your own knowledge.

1. Knowing what the guests know is important, so make sure you read all the information given to guests on arrival.
2. Stay overnight in the hotel in order that you have experience of the product you are selling.
3. Visit local attractions and make a note of the most suitable places and the cost for single people, families, elderly and disabled people.
4. Find out about what our competitors are offering, for example, their rates, services and facilities.

Keeping up-to-date checklist

0:26

Keeping up-to-date	✓
Reading information	
Staff handbooks – finding out about regular services	
Staff newsletters or bulletins – finding out about new services and special promotions	
Information booklets or leaflets – leaflets or booklets sent to customers or displayed in reception areas

Allergic reactions to food

The substance in a food that can cause an allergic reaction is called an allergen. There is generally more than one kind of allergen in each food.

Symptoms

The symptoms of food allergy can affect almost any part of the body, including the skin, the heart, the digestive system and breathing. Symptoms can appear very quickly or not until several hours after the person has eaten the food they are allergic to. The symptoms can include:

- Itchy or painful rashes
- tingling sensation in the mouth
- swelling of the lips, tongue, face and throat
- difficulty breathing
- diarrhoea
- vomiting
- abdominal cramps

Serious reactions

On rare occasions, food allergy can also cause someone's blood pressure to drop and lead to loss of consciousness. These symptoms are usually linked to anaphylaxis, which is a life-threatening form of allergy. [More](#)

Foods that cause allergy

In theory, any food can cause a food allergy. But in fact, just a handful of foods are to blame for 90% of allergic reactions to food. These foods are known as the big 'eight'. They are:

- milk
- eggs
- peanuts (groundnuts)
- nuts from trees (including Brazil nuts, hazelnuts, almonds and walnuts)
- fish
- shellfish (including mussels, crab and shrimp)
- soya
- wheat

In children, most allergic reactions to food are to milk, peanuts, nuts from trees, eggs, soya and wheat. Most children grow out of most allergic reactions to food in early childhood. In adults, most allergic reactions are to peanuts, nuts, fish, shellfish, citrus fruit and wheat.

This section mainly describes foods that can cause food allergy, but it also includes lactose intolerance and gluten intolerance/sensitivity (coeliac disease). These are types of food intolerance, but they aren't allergies.

Statutory Instrument 1995 No. 1763
The Food Safety (General Food Hygiene) Regulations 1995

SCHEDULE 1
Regulation 4(2)

RULES OF HYGIENE
Chapter I

General requirements for food premises (other than those specified in Chapter III)

1. Food premises must be kept clean and maintained in good repair and condition.
2. The layout, design, construction and size of food premises shall:
 - (a) permit adequate cleaning and/or disinfection;
 - (b) be such as to protect against the accumulation of dirt, contact with toxic materials, the shedding of particles into food and the formation of condensation or undesirable mould on surfaces;
 - (c) permit good food hygiene practices, including protection against cross-contamination between and during operations, by foodstuffs, equipment, materials, water, air supply or personnel and external sources of contamination such as pests; and
 - (d) provide, where necessary, suitable temperature conditions for hygienic processing and storage of products.
3. An adequate number of washbasins must be available, suitably located and designated for cleaning hands. An adequate number of flush lavatories must be available and connected to an effective drainage system. Lavatories must not lead directly into rooms in which food is handled.
4. Washbasins for cleaning hands must be provided with hot and cold (or appropriately mixed) running water, materials for cleaning hands and for hygienic drying. Where necessary, the provisions for washing food must be separate from the hand-washing facility.
5. There must be suitable and sufficient means of natural or mechanical ventilation. Mechanical air flow from a contaminated area to a clean area must be avoided. Ventilation systems must be so constructed as to enable filters and other parts requiring cleaning or replacements to be readily accessible.
6. All sanitary conveniences within premises shall be provided with adequate natural or mechanical ventilation.
7. Food premises must have adequate natural and/or artificial lighting.

Quo-burgers label

0:36

COOKING INSTRUCTIONS

Remove all packaging. Do not overcook.
For best results cook from frozen.

 **To grill**
Pre-heat grill to a medium setting. Brush burgers with a little oil.
Cook for 8–10 minutes on a middle rack position, turning occasionally.

 **To fry**
Fry in a little pre-heated oil for 8–10 minutes over a medium/high heat, turning frequently.

 **To microwave**
Place one burger on a non-metallic plate. Cover with microwaveable film, pierce film in several places and cook on full power for:

WATTAGE	B/550W	D/750W
Cooking time	2 mins	1.5 mins
Standing time	1 min	1 min

Quo-burgers

 **To barbecue**
Brush burgers with a little oil. When the coals have turned white, cook burgers for 8–10 minutes, turning frequently.

 **SUITABLE FOR VEGETARIANS**

WARNING:
MAY CONTAIN TRACES OF NUTS

Not to be used after this date

• Chilling – Growth of surviving spores or food-poisoning bacteria

• Production of poisons by bacteria

• Contamination with food-poisoning bacteria

• Cold food – Growth of food-poisoning bacteria

(e) Serving

- Growth of food-poisoning bacteria
- Contamination

Hazard analysis critical control points 0:38

CONTROL (1)

- 1.1 Always use the approved suppliers.
Specify maximum temperature at delivery.

CONTROL (2)

1 Delivery

- 1.1 Check delivery vehicles.
- 1.2 Check foods look, smell and feel right.
- 1.3 Check temperature is right.
- 1.4 Record temperatures.
- 1.5 Check date marks.
- 1.6 Check for signs of infestation.

CONTROL (3)

1 Refrigerated foods

- 1.1 Store away immediately.
- 1.2 Stock rotation.
- 1.3 Ensure all raw meats are kept separate from all cooked foods.
- 1.4 Ensure refrigerators are serviced regularly.
- 1.5 Check temperature of fridges regularly (must be below 5°C).
- 1.6 Always use approved suppliers
(Control 1).

2 Frozen foods

- 2.1 Ensure items are stored within 15 minutes of delivery to appropriate freezer.
- 2.2 Take weekly temperature on all freezers, in-between packs and boxes (temperature should be -18°C or colder, -15°C for ice-creams). Record in Temperature monitoring book.
- 2.3 Always use approved suppliers
(Control 1).

3 Dry goods

- 3.1 Ensure products are not damaged/torn etc.

- 3.2 Check 'best before' and 'use by' dates.
- 3.3 Check for signs of pests or foreign bodies.
- 3.4 Store away immediately in cool dry storage cupboard.
- 3.5 Always use approved suppliers
(Control 1).

CONTROL (4)

1 Preparation of food

- 1.1 Defrost under controlled conditions.
- 1.2 Keep raw and cooked food separate.
 - Always ensure there is soap at the wash hand basin in the kitchen and water closet. Check at the beginning of shift.
 - Always ensure you WASH YOUR HANDS REGULARLY using anti-bacterial soap.
 - Ensure correct colour-coded knives and chopping boards are used when preparing food to avoid cross-contamination:

1. YELLOW	→	COOKED FOOD
2. BLUE	→	RAW FISH
3. RED	→	RAW MEAT
4. WHITE	→	BREAD AND DAIRY PRODUCTS
5. GREEN	→	SALADS AND VEGETABLES
 - The chopping board colour coded with RED is used to prepare raw meat only.

2 Cooked foods

- 2.1 Cook rolled joints, chicken and re-formed meats (e.g. burgers) so that the thickest part reaches at least 75°C. Sear the outside of other solid meat cuts (e.g. joints of beef, steaks) before cooking.
- 2.2 Avoid reheating if possible.
- 2.3 Reheat only once.
- 2.4 Reheated food to reach 75°C minimum temperature throughout food.

/continued

3 Cooked-chilled foods (e.g. rice)

- 3.1 Food that is being cooled down prior to refrigeration **must not** be left at room temperature for more than 90 minutes.
- 3.2 Store in refrigerator, keep covered, date code.
- 3.3 Avoid contact with raw food.

4 Cold foods: salads and desserts

- 4.1 Ensure salads and vegetables are thoroughly washed and dried and free of insects and foreign bodies.
- 4.2 Avoid contact with raw meat.

CONTROL (5)**1** Serve

- 1.1 Serve high-risk cold foods ASAP after removing from fridge to avoid them getting warm.
- 1.2 Serve high-risk hot food ASAP to avoid cooling.

CONTROL (6)**1** Washing up

- 1.1 Plates and cutlery, etc. are cleaned in the dishwashing machine. The dishwashing machine is serviced by an authorised mechanic.

CONTROL (7)**1** Cleaning

- 1.1 All cleaning duties must be carried out at the end of both AM and PM shifts; the Manager/ Head Chef will check after each shift.
- 1.2 Ensure all cleaning materials are stored away in the **chemical store room**.
- 1.3 Always read the labels first – and if transferring cleaning liquids into spray containers, always write the chemical clearly on the bottle.
- 1.4 Deep cleaning of kitchen (i.e. extractor fans, hood, walls, etc.) will be carried out by the **kitchen staff** twice a month and once a year by an authorised company.

CONTROL (8)**1** Waste

- 1.1 All the overproduction is thrown away at the end of the day.
- 1.2 All waste is cleared away twice per day.
- 1.3 An authorised company carries out pest control monthly. Controls are recorded in a handbook supplied by the pest control company.

Remember!

The food you handle will be sold to members of the public. Food hygiene is your business. Report all breaches of the controls to your manager.

Pest identification chart

0:40

Pest	Identification	Characteristics	Hazards	Signs of infestation
Ant (black)		Also known as garden ants Feed on sweet food	• Spread pathogenic organisms • Dead bodies may contaminate food	• Live insects in and around food • Dead insects in and around food • Nests
Ant (pharaoh)		Pale yellow; smaller than black ants Feed on sweet foods and high protein foods such as meat	See black ant	See black ant
Fly – bluebottle		Feed by regurgitating substances onto food and then sucking it up Feed on rubbish, human and animal faeces and foodstuffs	• Carry pathogens on their bodies • Defecate on food as they eat • Regurgitate food that could be contaminated • Lay eggs on food • Maggots hatch from eggs • Die in food	• Live insects in and around food • Dead insects in and around food • Maggots on food
Fly – fruit fly		See bluebottle	See bluebottle	See bluebottle
Fly – greenbottle		See bluebottle	See bluebottle	See bluebottle
Fly – house		See bluebottle	See bluebottle	See bluebottle
German cockroach		Yellow brown, flat body, 15 mm in length Like damp conditions Feed on waste food	• Carry pathogens including <i>Salmonella</i> • Egg cases, faeces and dead bodies found in food	• Live and dead insects • Faeces • Egg cases or larvae • Odour
				/continued

Pest	Identification	Characteristics	Hazards	Signs of infestation
Oriental cockroach		Brown, flat body, 25 mm long Like humid conditions Feed on waste food	See German cockroach	See German cockroach
Wasps		Feed on sweet foods Common in late summer and early autumn	• Can carry pathogens picked up from rubbish • Dead bodies may contaminate food	• Live and dead insects in and around food • Presence of nests in premises though these may be difficult to detect
Black rat		Prefer fruit and vegetables Pointed nose, long tail and large ears	• Carry pathogenic and spoilage organisms • Droppings, urine, fur or dead bodies may be deposited in food	• Droppings and urine smears • Fur • Dead bodies • Sightings of live animals
Brown rat		Prefer cereal foods Larger and more common than the black rat	See black rat	See black rat
House mouse		Prefer cereal foods Small with pointed head, large ears and a very long tail	See black rat	See black rat
Birds		Most often pigeons or sparrows but any bird is a pest	• Carry pathogenic bacteria, including <i>Salmonella</i> • Leave contaminated droppings and feathers in food • Dead birds can contaminate water supplies if they fall into tanks	• Live and dead birds • Droppings • Nest • Feathers
Grain weevils		Infest pasta and flour Lay eggs in food and pupae feed on it as they hatch	• Not a direct health hazard but can leave eggs, pupae and bodies in food stuff	• Live and dead insects

Glossary

abbreviate cut short or reduce

abbreviation(s) shortened forms of written words (e.g. on a form 'Tel' is often written instead of 'telephone', 'DOB' instead of 'date of birth')

abdominal to do with the abdomen or belly

acceptance agreement with

accompaniments things that go with particular meals – mint sauce, horseradish, etc.

accordion folds material or paper folded under then over several times to make an accordion shape

acknowledge greet, welcome

Act piece of legislation, statute, part of the law

additive preservative, stabiliser, chemical ingredient added to food

aggregated combined, added up

allergy (plural: **allergies**) sensitivity or reactions to certain things (e.g. a hay fever sufferer has an allergy to pollen)

amend make changes, alter, revise

analysis investigation, breaking down into small steps

applicable applies to, is relevant to

application how something should be used

appropriate suitable for the situation, correct

arthritis disease causing painful swelling and stiffness of the joints

as per in accordance with (e.g. 'give guidance as per customer requirements')

assess consider, weigh up performance

assessment a review or check to make sure you can do something

assist help

attentive paying attention, thoughtful

audit a stock take

authorisation permission from someone in charge

bacteria one-celled organisms, some of which cause disease

bactericide a substance used to destroy bacteria

beverages drinks

bias favouring one side of an argument for personal reasons

biocide a substance used to kill living organisms

biological to do with living things (e.g. a biological hazard might be bacteria or rats)

borne carried (e.g. air-borne disease is disease carried by air)

brackets punctuation used in writing at either end of some extra information in a phrase or sentence

bye-law (by law) local law made by a local authority; it is applicable only in the area in which it is made

cabaret style arrangement of tables with chairs facing a stage or top table

café style arrangement of tables with chairs set around the table

canteen dining hall, cafeteria

capacity the maximum number of people a room can hold

carbon dioxide a gas used in some fire extinguishers

category group

Celsius a scale of temperature in which water freezes at 0 degrees and boils at 100 degrees (the same scale as centigrade); named after a Swedish astronomer called Anders Celsius

centigrade a scale of 100 degrees (the same scale as Celsius)

chargrilled grilled quickly at a very high heat over charcoal

chemical to do with chemicals (e.g. chemical hazards might be cleaning materials or fly sprays that accidentally contaminate food)

cheque guarantee card a plastic card issued by your bank to go with your cheque book

chump thick end of a loin

citation quote, the way the Act should be referred to

clasp hold on to, grip

clinical thermometer a thermometer used to measure body temperature

code of practice an explanation of how a law should be enforced; recommended standards

commencement beginning

commensurate in proportion; corresponding in size or amount

compensate to make up for something

competence skill, ability

competitors rival companies

condiments salt, pepper, etc.

confidential private and secret

confined small, enclosed

confined space small, enclosed space with not many windows and doors

consecutive numbers numbers that follow on (e.g. 6, 7 and 8 are consecutive numbers)

consistently time after time, reliably

consumption the act of eating or drinking

contaminant something that contaminates

contaminated infected, made dirty

contamination when unwanted items or bacteria are present
Contract of Employment legal document with the details of your job, holidays, pensions, etc.
contracted caught or developed (a disease)
converting changing or adapting
corresponds (with) matches
covers i 'guests'
ii place settings for a specific dish or meal
credit card a plastic card that allows you to make purchases immediately and pay for them later
Critical Control Point (CCP) the step in the preparation of food that has to be carried out correctly to make sure that a hazard is removed or reduced to a safe level
cross-contamination when micro-organisms are moved from one place to another on a vehicle of contamination (e.g. hands)
cruets small containers for things like salt, pepper, vinegar or oil
currency money
custody looking after or being in charge of something
dash short horizontal mark used like a bullet point
debit card a plastic card where the money you spend is taken directly out of your account
deduct subtract, take away from
defecate discharge faeces from the body
degree a unit of measurement of temperature
delegate a representative sent to a conference
delete cross through or out
demonstrated shown, proven
determine decide
diagonally on an angle
direct straight
directive instruction, order, command (e.g. European Directive – an instruction from the European Union to a member state to tell them to introduce new laws or change their old ones)
disciplinary procedure action that takes place when rules have not been obeyed
discretion judgement, opinion
disposable throwaway
distinctly clearly
due diligence a defence in law where the accused can show that they have done everything possible to prevent an offence occurring
duties the things you have to do for your job
efficiently in a well-organised and professional way
e.g. 'for example', from the Latin *exempli gratia*
EHO Environmental Health Officer
emphasis put stress on a word or phrase to make it stand out
emphasise make a word or phrase stand out as important

employee worker, member of staff
employer a person who employs others or gives work to others
entitlement what you have a right to receive
etc. 'and the rest', from the Latin *et cetera*
evidence facts which show something, proof
external outside
factual based on real life, not made up
faeces waste matter that is left after food has been digested and is discharged from the bowels
Fahrenheit a scale of temperature where water freezes at 32 degrees and boils at 212 degrees; named after German physicist Gabriel Fahrenheit
filo thin flaky pastry
fire extinguisher equipment used to put out or stop a fire
flammable easily burnt
formal polite, according to the rules of society
format the way the text is set out or looks on the page
fungicide a substance used to destroy fungi
genuine real
germicide a substance used to kill germs
gist the general idea of what something is about
goblet type of metal or glass drinking-vessel with a bowl-shaped cup
guide show the correct way to do things
guideline a general rule or piece of advice
hazard a danger or risk
holiday entitlement the holiday time you are allowed
humid hot and damp
hyperlinks words or symbols on a web page from the Internet that you can click on to take you to another page of information
hyphens punctuation marks that join words together or separate phrases in notes
i.e. 'that is', from the Latin *id est*
impediment (speech impediment) anything that makes speech unclear such as a stutter, lisp or stammer
imperative(s) something that is important, something that must be done
in accordance with in agreement with
in lieu in place of
incident an event or happening that could have been dangerous
inclusive included as part of the charge
incubate develop without outward signs (especially a disease)
incubation period the time it takes for a disease to develop
induction the period of introduction to a new job
inhaling breathing in

interlace entwine, link	nutritional relating to health and diet
interlock link, join	nutritional values the amount of different types of vitamins, minerals and other types of nourishment in a particular food
interpretation help with understanding something	obligation something that somebody must do
intolerant unable to tolerate or digest certain foods (e.g. lactose intolerant, not able to digest lactose)	observation watching, inspection
intoxicated drunk	opinion a personal view or belief, not necessarily a fact
irritated cross, angry or annoyed	optics devices in the neck of upturned bottles displayed behind a bar that measure out the correct amount of spirit into a glass
italics written in sloped writing	optional possible, chosen
jargon specialist, technical words used by a particular group or profession	organism an individual animal, plant or single celled life form
job description a document describing the exact tasks in your job	palm inner surface of the hand between the wrist and the fingers
lactose a type of sugar naturally present in milk and milk products	pancetta cured belly of pork
larva (plural: larvae) young insect (e.g. a caterpillar)	pasteurised sterilised (e.g. wine, milk, etc.), usually by heating to a particular temperature
layout overall plan, design or arrangement that helps you to tell what something is at a glance	pathogenic relating to micro-organisms that cause illness
legislation laws	pathogen(s) very small forms of life that cause illness
limitations restrictions	pax hospitality term for people, customers or guests
line manager member of staff in charge of you and your work	performance the way something is done
liqueur strong and sweet alcoholic spirit	personnel staff or workers
live electrical equipment machines and equipment that use electricity and are plugged in	pesticide a substance used to kill pests
location place or position	PFA pre-function area
log record	physical to do with real, touchable things (e.g. physical hazard might be a hair clip or a piece of metal from machinery that falls into food)
logical using reason, good sense	plus and, in addition to
logical order in the order that things should be done, not out of sequence	podium a small platform on which a person can stand to be seen by an audience
maintain keep up	policy a set of guidelines put in place by an organisation to be followed by their workforce
mandatory compulsory, must be done, required by law	portfolio collection of work, file
manual (n) an information pack or book (e.g. an instruction book)	positive helpful and encouraging
manual (adj) by hand (e.g. manual work is work done by hand)	positive numbers numbers more than zero
market general term for the buying and selling of items or services	prior to before
maximum the highest or largest amount	pristine perfect
micro small	pro rata proportional, ratio of one thing to another
mind map a graphical way to sort and record information	procedure particular method or way of doing things
minimum the least or lowest amount	prohibition a type of sign that shows something that is not allowed, something you must not do
minus negative amount	promote sell by making something sound attractive
mise-en-place preparation for service (e.g. getting the bar area ready)	proprietor owner
mobile moveable	provision conditions
mocha chocolate and coffee flavouring	pupa (plural: pupae) the stage in the life of an insect between larva and adult (e.g. a chrysalis)
multiple many	qualification proof that a certain level of competence has been achieved
national all over the country	
negative numbers numbers less than zero	
non-metallic not made of metal	

rambling confused	sterling word used to describe British money
range extent; different situations in which a person may be expected to perform competently	strategies ways or approaches for doing something
rational sensible, logical	subject main topic or purpose of a text
reactive unplanned, in response to something else	subsequently later, afterwards
recyclable material that can be used again	summarise sum up by giving the main point or points of something
regulation rule, explanation of the way an act is to be interpreted; can become part of the law	supplementary additional, extra
regulo used before a numeral to indicate a setting on a temperature scale in a gas oven	symbols marks or signs with a particular meaning (e.g. health and safety signs)
regurgitating bringing swallowed food back up	symptoms signs of a particular illness (e.g. a rash)
rehearse practice	technique method, skill
relevant needed, appropriate	textiles materials such as cloth or fabric
replenish refill or restock supplies	thawed defrosted, no longer frozen
responsibility a thing you are required to do as part of your job, a legal duty	theatre style chairs in rows
rights things due to you in law	thermometer an instrument used to measure temperature; it can be digital, infra red, traditional
risk the likelihood that a hazard will occur	thrive blossom, increase
rotational turning, round and round	tone the manner in which something is said (e.g. sadly, in a bored way, excitedly)
rounds round tables with chairs	tortellini small pasta parcels stuffed with cheese or vegetables
salmonella bacterium that occurs mainly in the gut and may cause food poisoning	toxin a poison produced by some bacteria and moulds
scan to look quickly through (in this case, a piece of writing to find particular words or phrases)	unauthorised not allowed or given permission
schedule a list of processes or procedures	unnecessary not required or important for understanding
signed off signed by your assessor to say that you have completed this section	unpasteurised not sterilised
simulation a pretend situation, something that is like real life	unsupported not proved, based on opinion without evidence
sincere truthful and friendly, not pretending or acting	valid officially acceptable
skim read a piece of text very quickly to get the general idea of what it is about without needing to read every word	vegan person who does not eat or use any animal products
slang language used in very informal social situations	vehicle i a thing used for transporting people or goods on land
source starting place, cause	ii a means of expressing something
specific exact	vehicle of contamination an object, person or animal on which micro-organisms can move from one place to another
specify state, say	venue place or room
spidergram a way of sorting information using connecting bubbles	verification proof, confirmation
spontaneous natural, spur of the moment	via through
spore a small single-celled unit from a plant or fungi that is capable of reproducing asexually; a hard, resistant body formed within the bacterial cell	vice versa the other way round
standard(s) level(s) of competence	vigilant observant, alert, on your guard
statute a law	vocational to do with particular jobs, occupations and employment
sterilise clean thoroughly, make germ free
