Task 3 – reading: a book review

This book is a thriller called 'Blackout'. It is written by Emily Barr. The story takes place in London and Paris in two different time periods – the present and one year ago. The main characters are a young woman called Sophie, her partner Rob and their baby son.

The story begins when Sophie wakes up in a strange flat in Paris and she has no idea how she got there. The last thing she can remember is when she went to bed in her flat in London. The novel tells the story of how she gets home to London with no money and no passport, and how she tries to understand what has happened to her. The novel has an unexpected ending, when Sophie learns the truth about her trip to Paris and her relationship with Rob.
